

NOTES ON AUTHORS

Al-Hassan Adam works with the National Coalition Against Water Privatisation (NCAP), Ghana.

Guillermo Amorebieta is co-ordinator of the Latin American network of Water Sector Trade Unions affiliated to Public Services International. He also heads the Water and Sanitation Works Trade Union of the Province of Buenos Aires. He co-authored books as well as magazines and newspaper articles published in Argentina, Chile, Paraguay and Brazil.

Santiago Arconada Rodríguez works at Hidroven, the main agency for drinking water and sanitation in Venezuela. He is the former secretary-general of the Textile Worker Union U.T.T. and has worked in water management in the cities of Caracas and Maracaibo.

Nila Ardhianie works with the Indonesian Forum on Globalization (INFOG). She has been involved in advocacy, participatory monitoring, and community development projects for more than 10 years - particularly on water resources and pesticide issues. A current main focus is advocacy and information dissemination on Indonesia's new Water Law passed in February 2004.

Raymond Avrillier is a technical engineer, ecologist and elected member of the city council in Grenoble since 1989. He is manager of the municipal water utility of Grenoble since 2001 and vice-president of the community of agglomeration in Grenoble in charge of water sanitation and rainwater since 1995. He is also co-author of the book "Le Système Carignon" (1995).

David Barkin is Professor of Economics at the Xochimilco campus of the Universidad Autónoma Metropolitana and is currently directing a national diagnostic study of urban water management in Mexico. He can be contacted at barkin@correo.xoc.uam.mx

Joy Elamon published a wide range of books and articles on health issues and participatory development. He was a consultant with the State Planning Board that coordinated the People's Campaign for Ninth Plan, the Kerala experiment on democratic decentralisation. He was also a member of the District Planning Committee in Trivandrum where he is based. At present he

works as Chief Programme Co-ordinator at SDC-CapDecK (Capacity Development for Decentralisation in Kerala, supported by the Swiss Agency for Development Co-operation).

Sean Flynn is an Associate at the Washington D.C. based law firm of Spiegel & McDiarmid. **Kathryn Boudouris** is a paralegal at the same firm. Spiegel & McDiarmid represents local governments, agencies and municipal and co-operatively owned utilities in the US and abroad in matters concerning regulatory design and compliance, environmental compliance, antitrust, complex litigation, telecommunications and other areas. Flynn may be contacted at sean.flynn@spiegelmc.com

David Hall is director of Public Services International Research Unit (PSIRU), responsible for its overall work. He specialises in water, energy and healthcare, and the design and maintenance of the PSIRU database and website. Before joining PSIRU he worked at the Public Services Privatisation Research Unit, which developed a database on privatisation for the UK trade unions. He had previously worked for trade union research units, and as a lecturer in higher education. He has written books on public expenditure and labour law.

Roman Havlicek has been active in the environmental movement since the late 1980's. Since 2002 he works at the Center for Environmental Public Advocacy (CEPA) as the coordinator of the Corporations project which evaluates the impacts of the Slovak government's policies towards foreign direct investments. He is also responsible for CEPA's water project which aims to defend the public interest in the ongoing process of transformation of water services.

Hans-Werner Krüger has since 1977 been employed at the Hamburg Waterworks plc and is currently heading the public relations department. He is a member of anti-privatisation networks and published a book about water supply in West Germany (1982) as well as a range of articles on water and privatisation subjects.

Hélio Maltz is the Planning Coordinator at DMAE (Municipal Department of Water and Sanitation) of the city of Porto Alegre, Brazil. He is responsible for managing the team working on budgets, expenses control, loan management, costs evaluation, international relations and special projects. Before joining the planning field, he was the manager of DMAE's Sewage Division, responsible for managing operation and maintenance of the sanitary sewerage and pumping facilities.

Dale T. McKinley grew up in Zimbabwe and studied in the USA, but has lived in Johannesburg, South Africa, since the early 1990s. He presently works as an independent researcher, editor, lecturer and writer. McKinley is an activist within the Anti-Privatisation Forum and the Social Movements Indaba. He has written a book on the history of the ANC's liberation struggle, numerous scholarly articles for journals and publishes regular articles in the press and progressive political publications.

Antonio Miranda is the former president of ASSEMAE (Brazilian Association of Municipal Water and Sanitation Public Operators) and currently its Director of International Affairs. He is also the Head of Municipal Water and Sanitation Services in the city of Recife, and member of the UN Secretary-General's Advisory Board. More info: amirandaneo@yahoo.com

Carla A. Montemayor is the former co-ordinator of Bantay Tubig (Philippine Water Vigilance Network). She has written a number of articles on the water privatisation debacle in Manila and has presented the role of French water giant Suez at many conferences in Asia and Europe.

Alberto Daniel Muñoz is based in Rosario, Santa Fe, Argentina. Muñoz is the vice-president of the National Roundtable of the Users and Consumers Union. He is also a member of the Provincial Assembly for the Right to Water and part of the co-ordination of RED VIDA, the Inter-American network of water activists.

Luis Sanchez Gomez (Cochabamba, Bolivia) served as an elected representative of the southern zone on the board of SEMAPA from 2002 to 2004.

Charles Santiago is the director of Monitoring Sustainability of Globalisation (MSN), a Malaysia-based research, advocacy and activist NGO. He is also the coordinator of the Groups of Concerned Citizens, a minority-based group working to increase democratic participation and empowerment of the poor.

Carlos Santos and Alberto Villarreal are with REDES-Amigos de la Tierra Uruguay.

Svitlana Slesarenok is the executive director of the All-Ukrainian Environmental NGO "MAMA-86" and may be contacted at slesarenok@mama-86.org.ua

Laila Smith is the Director of Research and Evaluation at the Contract Management Unit for the City of Johannesburg. She participates in the Water Service Authority team within the City and oversees the service delivery standards for Johannesburg Water, a public utility fully-owned by the City. Prior to this Laila worked for many years in the research and policy arenas focusing on the equity implications of private sector involvement in the water sector.

Philipp Terhorst is an activist researcher and PhD scholar at WEDC, Loughborough University. His focus is the potential of water movements for the democratisation of urban water services. Previous work includes research on water management in Cochabamba, Bolivia. He is active in various civil society networks, both international and German.

Hildebrando Vélez is an environmentalist and has during last 15 years worked with Censat Agua Viva (Friends of the Earth Colombia).

Luis Fernando Yavarí is Manager of Planning and Systems of SAGUAPAC, the water supply utility in Santa Cruz de la Sierra, Bolivia. He has also worked as Manager of Engineering, managing the operations and maintenance of the company. He is also a Professor in Civil Engineering of the University Gabriel René Moreno in Santa Cruz de la Sierra.
